Q. WHY IS THE DEPARTMENT OF MEDICAL EXAMINER - CORONER INVOLVED?

A. State law requires the Department of Medical Examiner - Coroner to inquire into and determine the circumstances, manner, and cause of all sudden, violent, or unusual deaths and those deaths where the decedent has not been seen by a physician 20 days prior to death. In such cases the deceased will be taken to the Department of Medical Examiner-Coroner's Office and examined by a physician to determine the cause of death. A death certificate is issued after the examination is completed. Occasionally, more extensive testing is required, in which case an interim or "Deferred" death certificate is issued which will allow the family to make funeral arrangements. An amendment will later be issued to company the death certificate following completion of special testing.
